# BE THE MOST SOUGHT-AFTER CYBERSECURITY EXPERT

**Learn | Evolve | Impact**

Develop your Cyber Resilience  
with the Most Powerful  
**Cybersecurity Certifications**

Cybercrime is predicted to cost the world **USD 10.29 trillion** by 2025. Global damage costs are expected to surge **34%** over the next two years, reaching **USD 12.43 trillion** by 2027 (Statista).

The Cybersecurity market revenue in 2024 is **USD 185 billion** and is expected to grow by **USD 215 billion** by 2026 (Statista). With the ever-increasing threat landscape, demand for cybersecurity specialists could continue to be strong. However, the shortage of cybersecurity professionals is a worry for every business involved in the cybersecurity ecosystem. To maintain the right balance between the skill gap and the cybersecurity jobs going vacant is to increase the skills through targeted training and specializations.

## **3.5 million** unfilled Cybersecurity job positions by **2025**

- Cybersecurity Ventures

**Robust.**

**Self-Paced.**

**Disrupting.**

The United States Cybersecurity Institute (USCSI®) provides the most robust and latest cybersecurity certifications tailored for the next-gen professionals, leaders, tech experts, academics, organizations, institutions, universities, and governments.

USCSI® tests every individual on their capabilities and checks them in every possible way before providing them the right cybersecurity certification. All certification programs under USCSI®, play a vital role, and offer you a modest advantage toward your career growth and employment.

# EMPOWERING A FUTURE-READY **CYBER** **RESILIENT** WORKFORCE

**20+**  
SMEs

## LATEST PROGRAM CONTENT

More than 20 SMEs have approved the latest content used in the programs, adding value to the knowledge and skills of the cybersecurity professionals.

**150+**  
COUNTRIES

## GLOBAL RECOGNITION

Our Cybersecurity Certification programs are recognized worldwide in more than 150 countries. Professionals can take their exams from any part of the world.

**200K+**  
CERTIFIED  
PROFESSIONALS

## OUR COMMITMENT

With the current skill gap and shortage of cybersecurity workforce, we are committed to develop relevant skills and certify 200k professionals by 2027.

**180+**  
HOURS  
OF LEARNING

## IMPACTFUL LEARNING

We have developed the world's most extensive and exhaustive, yet industry-relevant content of over 180 hours of learning.

# CYBERSECURITY CERTIFICATIONS

The United States Cybersecurity Institute (USCSI®) is committed to develop the right talent, potential, and the abilities to be specialized and well-qualified in cybersecurity.

Get the world's most powerful  
**cybersecurity qualifications** to  
accelerate your career!

## **Certified Cybersecurity General Practitioner (CCGP™)**

For anybody who is interested to learn and  
get elementary knowledge in Cybersecurity

## **Certified Cybersecurity Consultant (CCC™)**

For working professionals with less  
than 5 years of work experience

## **Certified Senior Cybersecurity Specialist (CSCS™)**

For working professionals with more  
than 6 years of work experience

The USCSI's cybersecurity programs are designed to deal with the futuristic issues of cyber threats, risks, and vulnerabilities of systems, processes, and updates. All the programs have the capability to equip you with the expertise and real-world skills in **cyber threat detection, risk analysis, risk mitigations, protection of data and systems, smart devices and IoTs, DDoS flooding attacks, Malware Analysis Techniques**, and a lot more that will help you advance in your career.

You may be a student interested in cybersecurity, a professional with experience in security analysis and cyber net, or looking to switch careers – the USCSI® certification programs offer the best way to move forward to become future-ready and achieve your professional goals.

## PROGRAM BENEFITS

### Exclusive Program Coverage

The programs' coverage includes the latest technological advances in cybersecurity like Python, R, ML, DL, Hadoop, Spark, Scala, DevOps, Docker, Cryptography, and more.

### Futuristic Program Content from over 20+ world-renowned SMEs

The program content is vetted by more than 20 SMEs in cybersecurity who are CTOs, CIOs, technology leaders from Fortune 500 organizations, and influencers.

### Self-paced

All the three certification programs include self-paced e-learning study-kit with multiple modules covered in at least two sets of study-books, on-demand videos, and more.

### Global Recognition

Every USCSI® certified professional will be globally recognized since all the programs are accepted by leading universities and organizations worldwide.

### Salary Increase of up to 40%

Various studies have shown that a USCSI® certified professional is capable to get raise of up to 40 percent in her current organization or otherwise.

### Get your sharable and state-of-the-art digital badge

The USCSI® certified professional will also be provided with a world-class digital badge to showcase her credential and it can be validated anytime, anywhere.

Get your latest program **self-study kit**  
worth up to **US \$650 FREE**

- Personalized Study-Books
- Real-world case study-based eLearning
- HD quality self-paced videos, vetted by the world's best SMEs
- State-of-the-art eLearning with Practice Code
- Sharable digital badge

## KNOWLEDGE POWERHOUSE FOR CYBERSECURITY LEARNING

With more than 180+ hours of learning, be rest assured to become a knowledge powerhouse in cybersecurity.

### Self-Paced Learning

- Learn at your own terms
- Invest just 8-10 hours per week of learning
- Access your learning from anywhere, anytime.
- Structured learning from Study books, videos, case studies, and practice code.

## INSTRUCTOR-LED LEARNING

The USCSI's Center of Cybersecurity Knowledge and Excellence (CCKE), has worked on another approach to learning on popular demand – the **Instructor-led learning**. Please note, this learning approach is on-demand and will be considered on approval from the office of CCKE. All approved requests for Instructor-led learning will be executed by various training partners or exclusive partners of USCSI® of the respective regions.

## EXAM PROCESS AND STANDARDS

USCSI® follows strict policies to help maintain the sanctity and reliability of its internationally renowned exams and ensure that an active, healthy, objective and alternative method is used to assess applicants' eligibility for the award of its respected identifications.

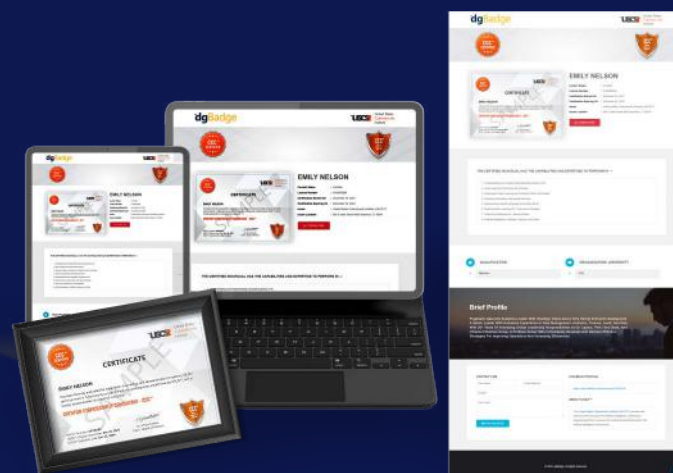

### Exam Duration and Details

The exams will contain the knowledge and competency-based questions; all USCSI® certification exams are computer-based and have multiple-choice format with a duration of 100 minutes.

Certifications	CCGP™	CCC™	CSCS™
No. of Questions	60	70	80
Duration (minutes)	100	100	100
Pass Mark	70%	70%	70%
Open Book	No	No	No

## CERTIFICATE AND DIGITAL BADGING

Once you clear your certification exam, you will be awarded with the most prestigious Cybersecurity Certification and also the state-of-the-art digital badge to showcase your exceptional achievement. Your Digital Badge is powered by the renowned digital certificate provider, dgBadge. You can share your digital badge on various social media platforms such as LinkedIn, Facebook, Twitter, Instagram and more.
